python powered

print("Hello, world!")

for Ages 8-12

Python Programming Boot Camp

February 21st–24th 2017
(BCSD February School Break)
10:00 am -12:00 pm

Students Must commit to all four sessions!

Python is a general purpose, dynamic programming language.
It is written in English and easy to learn and understand.
This is a great first programming language to learn!

Call or register in the Children's Room (914) 234-3570.

Registration Begins Tuesday, November 1st

Laptops are supplied.

Taught by staff from Digital Arts Experience (DAE).

Made possible by a WLS STEM mini grants.
