

COFFEE & CONVERSATION WITH ARTIKA LOGANATHAN

"Promoting Inclusion for
Children with Special Needs in
our Community"

TUESDAY, OCTOBER 24TH

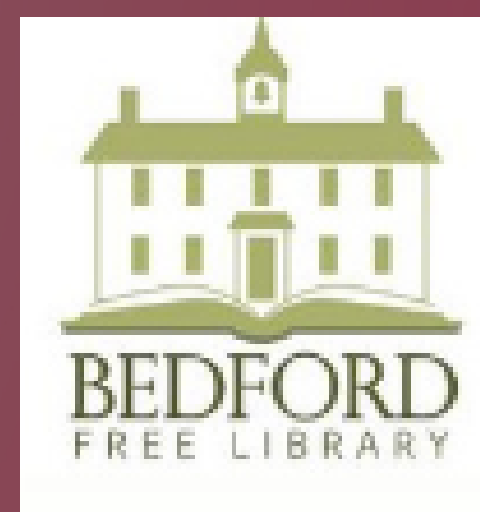

10am-noon

The purpose of this event is to:

- ✓ Discuss issues that matter to you and your child
- ✓ Share resources for parents of Special Needs children
- ✓ Help parents in Bedford Central School District navigate what is available
- ✓ Meet and connect with other families

Artika Loganathan is a Bedford Village resident and parent of a child who attended the SAIL program at Bedford Village Elementary School before losing his battle to his rare disease. She and her husband, Raj, recently founded a non-profit organization called Team Nikhil to honor their son and help improve the lives of children like him. Through this organization, they hope to promote and expand inclusive experiences, such as the library Book Buddy program in the community. Artika is also a clinical assistant professor at the Pace University Physician Assistant Program in Pleasantville.
