

Maple Berry

We rescued her one summer day
When she was still a puppy
Mom brought her straight into the yard
I've never felt so lucky

She broke into the family fast
She is a wild one
Belly rubs all day would do
She is my little sun

Cooce crazy silly puppy
Zoomys are her favorite game
Jumps so high to give us kisses
My pup loves me and I feel the same

And when the clock says 8pm
It's off to bed for all
She comes in through the open door,
Snuggles up, asleep we fall.
